

High Grade Short Intermediate Fixed Income Fund

Class Y Shares

For the Period Ended March 31, 2010

PACIFIC CAPITAL FUNDS

Investment Objective

High current income consistent with prudent capital risk by investing at least 80% of its net assets in fixed income securities issued or guaranteed by the U.S. Government, its agencies and instrumentalities and in investment grade corporate debt securities. Under normal market and interest rate conditions, the Fund's duration will be between two and five years.

Investment Considerations

Bonds offer a relatively stable level of income, although bond prices will fluctuate with interest rate changes providing the potential for principal gain or loss, especially longer-term bonds in a rising interest rate environment. Intermediate-term, higher-quality bonds generally offer less risk than longer-term bonds and a lower rate of return. Government guarantee applies only to the underlying securities and not to the Fund.

The values of any of the Fund's investments may also decline in response to events affecting the issuer or its credit rating.

Investment Process

- Top-down macroeconomic analysis of interest rate trends
- Bottom-up credit research to identify high quality bonds

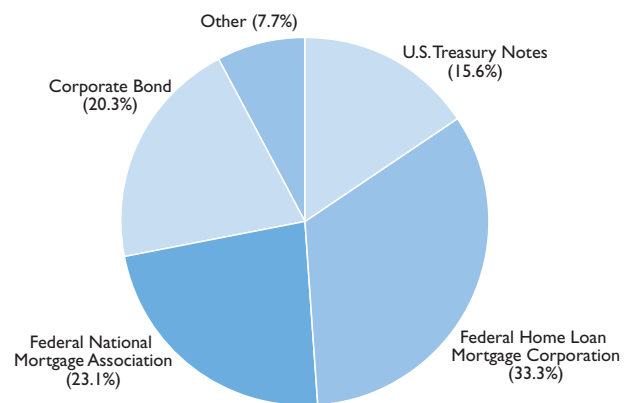

Potential Investor Benefits:

- High income potential by focusing on attractive sectors of the bond market
- High-quality portfolio of U.S. Government and agency securities
- Shorter-term portfolio may offer greater price stability than a longer-term portfolio

Investment Style: High-quality, short-intermediate-term, taxable

Portfolio Composition as of 3/31/10 (as a percentage of total investments)

PACIFIC CAPITAL FUNDS

Yield and Distribution as of 3/31/10

	Y Shares
Distribution Rate %	3.71
30-Day SEC Yield ¹ %	2.10
30-Day Effective Yield %	3.36
Cumulative Total Dividend (12 months)	0.3748

Distribution Rate: This figure indicates the amount of dividends and/or interest that the Fund actually pays out.

30-Day SEC Yield: Based on a 30-day period and is computed by dividing the net investment income per share earned during the period by the maximum offering price per share on the last day of the period.

30-Day Effective Yield: Based on a 30-day period and is computed by dividing net investment income per share earned for the period, assuming income is reinvested, by the maximum offering price per share.

Past performance does not guarantee future results. The performance data quoted represents past performance and current returns may be lower or higher. The investment return and principal value will fluctuate so that an investor's shares, when redeemed may be worth more or less than the original cost. To obtain performance information current to the most recent month end, please call 1-800-258-9232 or visit the Funds' website at www.pacificcapitalfunds.com.

The above expense ratios are from the Funds' prospectus dated November 27, 2009. The expense ratios "With Contractual Waivers" reflect the contractual waiver of various operational fees, if any.

The above performance tables do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or redemptions of Fund shares. Total returns reflect the contractual waiver of various operational fees, if any, as noted above, as well as a voluntary waiver of a portion of the Fund's advisory fee. Voluntary waivers, if any, may be revised or cancelled at any time. Had these waivers not been in effect, performance quoted would have been lower.

The **Merrill Lynch Domestic Master 1-5 Year Index** is an unmanaged broad-based index that measures the total rate of return performance of the short-term U.S. investment-grade bond market. The index does not reflect the deduction of fees associated with a mutual fund, such as investment management and fund accounting fees. The Fund's performance reflects the deduction of fees for these services.

The **Lipper Mutual Funds Index** is an equally weighted average of the largest mutual funds within their respective investment objectives, adjusted for reinvestment of capital gains distributions and income dividends.

Growth of a \$10,000 Investment

The chart above represents the results of a hypothetical \$10,000 investment from 3/31/00 to 3/31/10.

Investors cannot invest directly in an index.

Total return calculations for the Fund include changes in share price and reinvestment of dividends and capital gains.

¹ The 30-day SEC Yield reflects the voluntary waiver of a portion of the Fund's advisory fee. Had this waiver not been in effect, the 30-day SEC Yield would have been 2.17%.

Investment Management

Advised by Asset Management Group of Bank of Hawaii (AMG)

- AMG manages \$3.3 billion in mutual fund assets. In addition, certain AMG personnel also manage approximately \$1.2 billion in assets on behalf of Bank of Hawaii clients.
